### banner material

Heavy-duty, single side, 13 oz. reinforced vinyl comes with reinforced hemmed or heat welded seems and brass grommets. Banners will last two years or more when properly hung.

### proofs

No proofing is necessary once your corporate banner library is approved. If your managers in the field choose to customize, an electronic proof will be sent via e-mail.

### turnaround

Your customized program can be up and running in as little as 10 days. After your managers in the field get their electronic order form, banners can be shipped within 10 business days.

### shipping

Banners are sent UPS ground. The actual freight cost (usually between \$5 and \$10) is included on the invoice.

#### ■ GUARANTEE

We guarantee the accuracy of each order as shown on the corporate order form. These premium quality banners can last for years, if installed, rolled and/or stored properly. Since handling, installation and storage are so critical and out of our control, we must limit our guarantee to 6 months. Recommended use is to hang the banners flat against a building. Hanging any banners between poles makes them susceptible to wind damage.
